

Dear New Pack Leader,

Congratulations on your decision to add a puppy member to your family!!

Important Information

The **all-natural** immune system builder that your puppy would benefit from is NuVet.

NuVet Granual / Powder is mixed in with the dry kibble to coat for easy intake. The Puppy Food Pkg. Given to you upon Pick Up of your puppy will already have NuVet Vitamins mixed in. **It is vital to the development of his/her immune system**, especially during his first years, but nutritionally beneficial for life. One tub of NuVet granual will last your several months and goes a long way.

In addition to building his/her immunity it also helps to develop a healthy coat, fight off allergies, and prevent many of the health issues that are not covered by vaccines, thereby extending your dog's longevity (see attachment).

****Be sure to order this supplement prior to receiving your puppy.** It is not available in stores and only available to the general public with the recommendation of an authorized pet professional. Ordering information is on the attached flyer.

Order # 012401 granual / powder for puppies.

NuVet Labs will advise us when ordered.

Sincerely,

Jenni Popovich

Keeping your pet safe is an uphill battle. That's why it is so important to strengthen your pet's immune system every day with **NuVet Plus**®.

Why Strengthen
Your Pet's
Immune System
every day?

To Help Shield It From All This...

Backyard pesticides, fertilizers, bacteria, and viruses that attack your pet's immune system;

Carpet backing, which contains formaldehyde, tuolene, benzene, xylene, styrene (Pregnant women are warned to avoid new carpets; but your pet buries his nose in it every day); also toxins are brought in on shoes (pesticides, lawn fertilizer, bacteria, viruses);

Pet Foods, most contain hormones, pesticides, meat by-products, preservatives, grain and corn (major sources of allergies)

Household Toxins (floor cleaners, bug killers, air freshener phthalates, household mold);

Pet Treats loaded with sugars and fillers, they promote diabetes and liver problems in pets;

Mouth Toxins – 80% of dogs and 70% of cats have periodontal disease by age three, dumping toxins into their bloodstream;

Seasonal Problems (allergies, dry skin).

NuVet Plus®
